About Doosan

Values that drive our future growth

The Doosan Way is a unique set of corporate values and philosophy that has guided our growth. It is a systematic management philosophy for sustaining Doosan and raising our future competitive edge. The Doosan Way consists of two key parts: the Doosan Credo and a distinctive business system.

The Doosan Credo
A resolute vision, the Doosan Credo unifies our employees worldwide, providing the direction in which we march together towards the future. Our shared aspiration is to be a global leader that provides world-class products and services that employees, customers, shareholders, and other stakeholders can trust and take pride in. The Doosan Credo places the highest importance on people, integrity, innovation, and delivering value to our customers and partners.

The Efficient Business System
Our core business system is comprised of human resources, strategy execution, and financial management. Through this system, we implement our "2G Strategy" a manifestation of our conviction that our business can only grow through the growth of our people. It binds and systematizes our strategy with our people, multiplying business results. The Doosan business system supports the performance-oriented culture of Doosan and paves the way for continuous growth and development.

Cultivating People
Doosan's leadership course, Doosan Leadership Institute (DLI), strengthens job performance while teaching trainees the Doosan Way. The DLI is a space for learning and growth that realizes and continuously develops our philosophy of "People are the Future." The purpose of the DLI is to create an organization that develops global leaders.
Doosan Industrial Vehicle

Major global player in the infrastructure support business with a proud heritage

With a proud history dating back to 1937, when we first started out as Chosun Machinery, Doosan Industrial Vehicle has grown into Korea’s largest machinery manufacturer, playing a leading role in the development of the industry in Korea.

Today, we are a global enterprise. We operate large-scale plants and sales subsidiaries both at home and overseas and maintain an operational network that spans continents.

**Committed To Innovation**
We remain committed to the advancement of new technologies and development of talented individuals, positioning us to respond effectively to the rapid changes taking place in the 21st century. Our mission is to strengthen our global position and become the industry leader well into the future.

**Committed To Our Customers**
We are committed to our customers, providing superior products and excellent services to go with them.

**Our Promise**
Doosan Industrial Vehicle will be the partner you can count on, always putting our commitment to you first.

**Award-Winning Machines**
Doosan currently holds a number of export, design & safety awards, including four Forklift Truck Association awards for Design Excellence.
**The Versatile Performer**

Doosan's BWP17S-7 Walkie Reach Stacker is equipped to handle many jobs. Whether it's working in narrow aisles or moving freight on the dock, this walkie truck can be used to supplement full size forklifts in many ways.

- The 156" triple mast can stack loads high while maintaining a low collapsed height for clearance under doorways or overhead obstructions.
- The industrial sized battery compartment gives you longer run times necessary for completing the job.
- Standard battery rollers and dual side gates allow replacement batteries to be easily removed and installed.
- The standard tilting fork carriage helps speed removal and replacement of loads in the rack and provides exact positioning.
- The ergonomic control handle has all the hydraulic functions at your fingertips, not out of reach on the chassis.
- An adjustable spring loaded caster helps stabilize loads when lifted and when making turns.
- The Curtis Controller provides precise travel control necessary to maneuver in tight narrow aisles.

The Doosan BWP17S-7 Walkie Reach Stacker can perform the tasks of larger and more expensive equipment at a fraction of the cost. You will be impressed with its versatility.

---

**BWS17S-7 Walkie Stacker**

**Economy, First Class**

Doosan's BWS17S-7 Walkie Stacker can move, lift, stack and store products in your warehouse without a large investment.

- A 24-volt AC drive system is smooth, powerful, efficient and requires minimal maintenance.
- The ergonomic control handle has a low speed/brake override switch for maneuverability in tight areas.
- Adjustable outriggers make it easy to handle different sized loads.
- Standard deep cycle batteries and a built-in charger keep products on the move.
- A standard storage tray provides a convenient place to store job related items.

The Doosan BWS17S-7 Walkie Stacker is a highly maneuverable, powerful, and versatile stacker.

---

**Small Turning Radius**

The Doosan Stacker series design provides a significantly tighter turning radius than typical counterbalanced lift trucks.
The Versatile Performer

Doosan’s BWP17S-7 Walkie Reach Stacker is equipped to handle many jobs. Whether it’s working in narrow aisles or moving freight on the dock, this walkie truck can be used to supplement full size forklifts in many ways.

- The 156” triple mast can stack loads high while maintaining a low collapsed height for clearance under doorways or overhead obstructions.
- The industrial sized battery compartment gives you longer run times necessary for completing the job.
- Standard battery rollers and dual side gates allow replacement batteries to be easily removed and installed.
- The standard tilting fork carriage helps speed removal and replacement of loads in the rack and provides exact positioning.
- The ergonomic control handle has all the hydraulic functions at your fingertips, not out of reach on the chassis.
- An adjustable spring loaded caster helps stabilize loads when lifted and when making turns.
- The Curtis Controller provides precise travel control necessary to maneuver in tight narrow aisles.

The Doosan BWP17S-7 Walkie Reach Stacker can perform the tasks of larger and more expensive equipment at a fraction of the cost. You will be impressed with its versatility.
**Hour Meter / BDI**
BWS17S-7 comes standard with an Hour Meter/Battery Discharge Indicator to keep track of hours used and reserve battery power at a glance.

**Low Speed / Brake Override Switch**
Allows creep speed operation with handle in the upright position. Increases ability to maneuver in tight spaces.

**Ergonomic Handle**
Reduces operator fatigue.

**Poly Drive Tire**
Provides longer tire life and has lower energy consumption versus a rubber tire.

**Three Mast Heights**
106", 130" (STD), and 145"
Versatility to meet your application.

**CAN Bus Technology**
This reduces the number of connections and potential for problems making the system less complicated and more reliable.

**Roll-Out Battery Tray**
Allows for easy maintenance, removal and replacement.

**Adjustable Spring Loaded Caster**
Helps stabilize loads when lifted and when making turns.

82”/156” Triple Mast

Allows for higher lift heights while retaining a low collapsed height.

Hour Meter / Battery Discharge Indicator

Keeps operator informed of battery reserve capacity and maintenance intervals.

Low Speed / Brake Override Switch

Allows creep speed operation with handle in the upright position. Increases ability to maneuver in tight spaces.

Ergonomic Handle

Reduces operator fatigue.

Pantograph Reach Mechanism

Reaches the overall length of the truck providing a tighter turning radius over counterbalanced stackers.

Tilting Fork Carriage

Gives the correct fork angle for productive load handling.

Plexi-glass Mast Guard

Ultimate in safety and visibility.

Sizable Battery Compartment

13” battery compartment for use with an industrial battery.

Roll-Out Battery Tray

Allows for easy maintenance, removal and replacement.

Large Base Legs

Provides the stability needed for higher lift heights.

Adjustable Spring Loaded Caster

Helps to stabilize the unit when lifting loads.

Complementary Products

Doosan manufactures a wide range of quality products utilizing the latest technology and safety features.

Doosan’s warehouse equipment provides excellent mobility and increased return on your investment over larger more expensive units.

Combined with our Electric, LPG, and Diesel powered forklifts, Doosan’s warehouse products will bring efficiency to your operation, increasing your overall productivity.

**SITDOWN FORKLIFTS**

- **4-wheel LPG cushion tire**
  - 3,000 - 6,500lb capacity

- **4-wheel, LPG/Diesel pneumatic tire**
  - 3,000 - 36,500lb capacity

- **3-wheel, Electric cushion tire**
