Acrylic Tank Manufacturing
A Doosan Customer Testimonial

“TANKED” Television Stars Love Doosan Forklifts!”

Acrylic Tank Manufacturing (ATM) is the largest aquarium manufacturing company in the United States.

Headquartered in Las Vegas, Nevada, ATM has delivered thousands of aquarium systems & exhibit panels worldwide. Their portfolio includes customized tanks for casinos, hotels, museums and zoos. Business partners and owners Wayde King and Brett Raymer are also celebrities and the stars of the popular reality television show “TANKED”, which airs on the Animal Planet network. “TANKED” shows how they design, manufacture and install unbelievable aquarium systems for well known celebrities and customers. Viewers see projects from start to finish.
Acrylic Tank Manufacturing

Before choosing Doosan, Wayde and Brett shopped around and visited over 10 different competitors. When asked how they felt about Doosan, they simply stated, “Unbelievable. The Best Thing Ever.” Tanked is appreciative of the time and energy Doosan places in building a relationship with them as well as providing them with everything they need. They hope this relationship continues to grow and they are excited about displaying additional Doosan products on their show. In the words of Wayde King, “If you don’t have a Doosan, you don’t have a forklift.”

“We evaluated forklift trucks and Doosan seemed to be more reliable; a better unit with less downtime.”
