

RAYTEK Lighting, Signs & Electrical

A Doosan Customer Testimonial

Distinctively Different

“Choosing a **Doosan forklift** was the right decision. Of all the forklifts we looked at, it was definitely the **best.**”

*Chris Perry, Co-Owner
RAYTEK Lighting, Signs & Electrical*

RAYTEK Lighting, Signs & Electrical specializes in all types of commercial and industrial lighting and signage for customers in the greater Phoenix, Arizona area. Founded in 2009 by Chris Perry and Ramon Jimenez, RAYTEK provides lighting maintenance for interior and exterior

buildings and parking lots, sign installation and energy efficient lighting retrofits.

With over twenty years of combined electrical, lighting and sign industry experience as well as an L-11 Electrical Contractor's License, RAYTEK maintains its dedication to customer service and quality work.

RAYTEK Lighting, Signs & Electrical

Working with large retail chains and restaurants, including a recent signage job of over 35 coffee shops in the Phoenix area, RAYTEK needed a more effective solution to their material handling needs. The challenge of moving oversized crates full of light fixtures, signage and electrical materials between storage areas and company vehicles prompted the need for a reliable forklift.

“We did our research, talking to six forklift manufacturers before deciding on Doosan,” says Perry. “We had an idea of what we wanted and we were looking for a supplier that would continue to support us. We immediately liked Doosan forklifts and Reliable Forklift Sales. Just like us, Reliable has a very strong focus on customer service and maintaining a good working relationship with its customers.”

Perry worked with Vic Villont, Area Sales Manager at Reliable Forklift Sales, and selected the operator-friendly Doosan G25 lift truck. They added a side shifting fork positioner to handle various sized loads of signage and electrical materials.

“Our Doosan forklift easily moves very large sign crates. The side shifting fork positioner really helps our productivity. It allows us to pick up and move materials much faster and easier than before.”

RAYTEK Lighting, Signs & Electrical

“Reliable Forklift Sales was incredibly helpful to us, loaning us a forklift to use before our new one arrived. They offer outstanding service and always make sure our Doosan is taken care of. We are very pleased with our new Doosan forklift and with Reliable Forklift Sales,” notes Chris Perry, Co-Owner, RAYTEK Lighting, Signs & Electrical.
